

Commence in Closed Hold, man facing diagonal wall.

MAN'S STEPS**FORWARD HOVER – 4-6 REVERSE TURN – OPEN TELEMAR TURN – CHASSE IN PROMENADE POSITION**

- 1) LF fwd diag wall, RF fwd, replace weight back to LF (Hover) (123)
- 2) RF back diag centre ag LOD. Turning L, LF to side, close RF to LF facing diag centre (123)
- 3) LF fwd in CBMP diag centre outside partner on L side, turning L. RF to side, turning L to Promenade Position. LF to side and fwd, moving diag wall (123)
- 4) RF fwd and across diag wall in CBMP. LF to side in Promenade Position. Close RF to LF, LF to side diag wall (12&3)

SWIVEL – CHASSE IN PROMENADE POSITION – CHAIR, SLIP PIVOT – 1-3 REVERSE TURN

- 5) RF fwd and across in Promenade Position, LF closes to RF, swivelling to face wall. Holding position, swivel to face diag wall, LF to side in Promenade Position (12&3)
- 6) RF fwd and across in Promenade Position, LF to side, RF closes to LF, LF to side (12&3)
- 7) RF fwd down LOD in Promenade Position, flexing L knee (Chair). LF back ag LOD, turning lady square, slip RF back ag LOD (Slip Pivot) (123)
- 8) LF fwd diag centre. Turning L, RF to side to diag centre. Still turning, close LF to RF, backing LOD (123)

TURNING CHASSE – NATURAL TURN – OPEN IMPETUS TURN – WEAVE FROM PROMENADE POSITION

- 9) RF back down LOD, still turning L. LF to side along LOD, close RF to LF, LF to side facing diag wall (12&3)
- 10) RF fwd diag wall, partner on R side. Turning R, LF to side, square to partner. Close RF to LF, facing ag LOD (123)
- 11) LF back down LOD, turning R. RF closes to LF (Heel Turn), turning R with partner turning to Promenade Position. LF fwd diag centre (123)
- 12) RF fwd and across in CBMP, moving diag centre. LF fwd towards centre, turning lady square. RF to side slightly back down LOD, still turning (123)

4-6 REVERSE WEAVE – NATURAL TURN – SPIN TURN - 4-6 REVERSE TURN, UNDERTURNED

- 13) LF back diag centre in CBMP, partner on R side. RF back diag centre turning L. LF to side, slightly fwd, to diag wall (123)
- 14) RF fwd diag wall, partner on R side. Turning R, LF to side, square to partner. Close RF to LF facing ag LOD (123)
- 15) LF back down LOD, turning strongly R to face LOD. RF fwd turning R, LF to side slightly back, backing centre(123)
- 16) RF back diag centre ag LOD, LF to side, RF closes to LF (123)

Commence in Closed Hold, man facing diagonal wall.

LADY'S STEPS**FORWARD HOVER – 4-6 REVERSE TURN – OPEN TELEMARCK TURN – CHASSE IN PROMENADE POSITION**

- 1) RF back diag wall, LF back, replace weight to RF fwd diag centre ag LOD (Hover) (123)
- 2) LF fwd diag centre ag LOD. Turning L, RF to side, close LF to RF backing diag centre (123)
- 3) RF back diag centre in CBMP outside partner on L side, turning L. Close LF to RF (Heel Turn), RF fwd diag wall in Promenade Position (123)
- 4) LF fwd and across in CBMP. RF to side in Promenade Position. Close LF to RF, RF to side diag wall (12&3)

SWIVEL – CHASSE IN PROMENADE POSITION – CHAIR, SLIP PIVOT – 1-3 REVERSE TURN

- 5) LF fwd and across in promenade Position, RF closes to LF, swivelling to face centre. Holding position, swivel to face diag centre, RF to side in Promenade Position (12&3)
- 6) LF fwd down LOD in Promenade Position. RF to side, LF closes to LF, RF to side (123)
- 7) LF fwd down LOD in Promenade Position, flexing R knee (Chair). RF back ag LOD, turning strongly to face partner, LF small step fwd (Slip Pivot) (123)
- 8) RF back diag centre, turning L. LF to side to diag centre, still turning. Close RF to LF to face LOD (123)

TURNING CHASSE – NATURAL TURN – OPEN IMPETUS TURN – WEAVE FROM PROMENADE POSITION

- 9) LF fwd down LOD, still turning L. RF to side along LOD, close LF to RF. RF back and to the side, backing diag wall (12&3)
- 10) LF back diag wall, partner on R side. Turning R, RF to side, square to partner. Close LF to RF, facing LOD (123)
- 11) RF fwd diag wall in CBMP on partner's R side. LF to side, closing RF to LF without weight (Brush). Still turning R to end in Promenade Position, RF fwd and to the side (123)
- 12) LF fwd and across diag centre in CBMP from promenade Position, turning L. RF to side, square to partner. Still turning L, LF to side (123)

4-6 REVERSE TURN – NATURAL TURN – SPIN TURN – 4-6 REVERSE TURN, UNDERTURNED

- 13) RF fwd diag centre in CBMP on partner's R side. LF fwd diag centre, square to partner. Turning L, RF to side slightly back diag wall (123)
- 14) LF back diag wall, partner on R side. Turning R, RF to side, square to partner. Close LF to RF, facing LOD (123)
- 15) RF fwd down LOD, turning strongly R to face ag LOD. LF back, closing RF to LF without weight (Brush), RF fwd centre (123)
- 16) LF fwd diag centre ag LOD, RF to side, LF closes to RF (123)
